Professional Profile

I am an Computer Science and Engineering student with a passion for coding and problem solving. With my skills and dedication towards coding profile. I have developed skills and knowledge about coding during my college life. And as an CS student I solve leetcode questions to enhance my skills.

Work Experience

Mann + Hummel

January 2022 - May 2022 : *Diploma Intern Trainee*

I have worked as an intern in this company during the last semester of my diploma. I was working as an machine operator. There I got to learn about team work, time management, Critical Thinking and other key skills which helped me to have a developed personality. There I got to learn the skills like team management, work life balance, how to create a network, and many other key skills. I performed this internship from mechanical background after that I shifted in the field of Coding.
